When You Trade Your Car

Ford owners are continually being approached by salesmen of other automobiles who wish to "accept" Fords as part payment on more expensive cars.

It is perfectly logical that automobile dealers everywhere should be eager to trade for Ford Cars. The Ford is the most popular automobile in the world. No other car is so easy to sell as a used Ford.

Most automobiles carry greater discounts to dealers than the Ford—another reason why other dealers may offer a larger trade-in allowance.

The big thing is the difference you have to pay. And remember, no other car will be so easy to dispose of as a Ford.
